

SECTION 06 / FINAL CHECKLIST

Close the file in six controlled steps

Do not buy testing first and analyze later. Build the decision record in this order and preserve what was checked.

1
READ
Open the exact ASIN notice and deadline in Account Health.

2
AGE
Calculate the report age from its actual issuance date.

3
MATCH
Reconcile product, variants, factory, materials, rules, and lab scope.

4
TRIGGER
Identify periodic testing, material change, or an Amazon-only event.

5
TIC
Ask whether the authorized TIC will verify documents or require testing.

6
CPC
Keep, reissue, replace, or correct the CPC based on the real trigger.

NEED THE FULL ANALYSIS?

The expanded article adds the full decision matrix, five hard scenarios, old FBA inventory analysis, TIC questions, current Part 1110 certificate fields, and the complete primary-source ledger.
